SembCorp Marine is a leading global marine-engineering group, specialising in ship repair, shipbuilding, ship conversion and offshore engineering. With a combined docking capacity of 1.9 million dwt, we offer one of the largest ship-repair and ancillary marine facilities in East Asia through seven established shipyards - five in Singapore and one each in Indonesia and China. All our shipyards operate as distinct brand names focusing their expertise to fulfill the unique needs of their respective market niches. Anchoring ourselves for future growth, SembCorp Marine plans to capitalise on the strong branding and reputation of our shipyards to become a market leader across segments of the marine industry.
